Investment into your child's future

By now you have read through the Growing in GRACE II handbook which outline the agreements, policies, and procedures and incorporates a quality of Christian education for your child. The handbook also states roles and responsibilities of Growing in GRACE II and that of the parents or authorized guardian(s). Our pledge and commitment to you is to be your partner, encourager, and supporter in the education and spiritual growth of your child Growing in GRACE II is a mission outreach of Grace Evangelical Lutheran Church.

Growing in GRACE II exists to support and assist parents in raising Christian children who believe in Jesus Christ as their savior by providing a Christ-centered early education and care, which nurtures the preschool-aged children of Spring Hill, FL and the larger community.

Growing in GRACE II is a non-profit center that strives to keep the fees and cost down, but also remain financially able to provide this service. In stating this, we need you to understand that for us to provide quality Christian education for your child we will need to keep up with our financial obligations in providing this care.

Since our commitment is to provide you and your child with high-quality Christian education we strive to hire and keep educated and experienced staff that understands the developmental and age-appropriate learning, intentional teaching, and can also provide nurturing care to build trusting relationships that promote positive interactions between adults and other children. This alone comes with investments of payroll, taxes, workman's compensation, vacation, and sick time, staff background and FBI check, and staff training. We also invest in purchasing and maintaining high quality educational equipment, materials, and actives, nutritious snacks, besides consumable items, such as paper, crayons, pencils, markers, craft materials, hand towels, toilet paper, drinking cups, paper plates, hand soap, cleaning and disinfecting supplies, and more. Then lastly, the cost of the licensing, fire system inspection and fees, liability insurance, and the cleaning and maintenance of the building. As you can see the investments are high, but long term outcome of quality Christian education and care is priceless to your child's future.
